

## Thermal Protection Barrier Film

TemprX<sup>®</sup> film shields Pressure Indicating Sensor Film from damaging temperatures

TemprX<sup>®</sup> is a thermal protection polyimide film for use with Pressure Indicating Sensor Film in applications that reach high temperatures. Pressure Indicating Sensor Film is thin, flexible, and instantly captures and records pressure distribution and magnitude between any two contacting, mating or impacting surfaces. It is simple to use, effective and inexpensive.

TemprX<sup>®</sup> film comes on a roll or by the sheet

### COMMON APPLICATIONS

**Aerospace:** composite bonding, nip pressures

**Electronics:** heat sink analysis, nip pressures, laminations, LCD bonding

**Factory:** lamination, clamping, heat sealing, nip pressures

### PHYSICAL SPECIFICATIONS

**Roll Dimensions:** 1 ft. x 108 ft. (0.3 m x 32 m)

**Temperature Range:** Up to 752° F (400° C)

**Thickness:** 5 mil (0.127 mm)

Other thicknesses and widths available. MSDS available upon request.
